PLATE 01 • PURE MINERAL ABSTRACTION

# Luminescence of Masazir

*Masazır Parıltısı*

| | |
|---|---|
| **DIMENSIONS** | **130 × 100 cm** (Horizontal Landscape Canvas, Specification from Brief) |
| **MATERIALS** | Genuine Masazir Pink Lake Salt, Textured Paste, Heavy Impasto, Oil Paint on Canvas |
| **CONCEPT** | An ethereal, meditative abstract landscape capturing the tranquil morning horizon over Lake Masazir. Where misted pastel-pink saline waters meet white crystalline shores, thick palette-knife impasto sculpts the organic coastline, embedded with coarse pink-and-white mineral crystals that glisten naturally in ambient light. Scored with delicate geometric sgraffito fissures in the mineral foreground, this composition embodies pure lacustrine serenity. (Pure geological abstraction; zero portraits, zero figures, zero carpets). |

PLATE 02 • TACTILE SHELL ASSEMBLAGE & MINERAL PAINTING

# The Shebeke Reliquary

*Şəbəkə Qalığı*

| | |
|---|---|
| **DIMENSIONS** | **40 × 60 cm** (Vertical Format Canvas, Specification from Brief) |
| **MATERIALS** | Crystalline Masazir Pink Lake Salt, Fine Beach Sand, Oil Paints and Canvas |
| **ENDEMIC ORGANISM** | Caspian Cockles (*Didacna trigonoides* & *Didacna pyramidata*) |
| **CONCEPT** | An architectural mandala and tactile stone reliquary fusing Absheron's stone-carving traditions (*daş yonma*) with sacred geometry. Arranged in precise concentric celestial rings, hundreds of natural Caspian *Didacna* cockle shells and iridescent mother-of-pearl segments radiate outward from an incandescent core of crystalline pink Masazir lake salt and vibrant turquoise mineral pigment. Encircled by golden Absheron coastal sand and framed within a square relief of cracked mud-volcano craquelure and incised geometric Shebeke stone tracery, the work fuses deep Caspian biological antiquity with timeless architectural harmony. |

PLATE 03 • INDUSTRIAL-GEOLOGICAL ABSTRACTION

# Black Gold

*Qara Qızıl*

| | |
|---|---|
| **DIMENSIONS** | **80 × 100 cm** (Vertical Format Canvas, Specification from Brief) |
| **MEDIUM / TECHNIQUES** | Raw Unrefined Binagadi Bitumen, Pyrite Sulfide Aggregates, Chalky Limestone Contrast Sgraffito, Oil & Industrial Asphaltite Knife Impasto |
| **ENDEMIC WILDLIFE** | Caspian Marine Shad / Brazhnikov's Shad (*Alosa braschnikowi*) |
| **CONCEPT** | Confronting Baku's historic role as the pioneer of world petroleum, minimal structural scaffolding beams inspired by historic wooden oil derricks slice across visceral slabs of pitch-black Binagadi bitumen. Leaping through the dark matrix is an armored Caspian marine shad adorned with metallic golden pyrite ore, set above the eternal subterranean gas flame (*Yanar Dağ / Ateshgah*). |

PLATE 04 • EARTH-ART VORTEX • GEOTHERMAL MINERAL PAINTING

# After Hard Day of Work

*Ağır İş Günündən Sonra*

| | |
|---|---|
| **DIMENSIONS** | **145 × 145 cm** (Monumental Square Format 1:1, Specification from Brief) |
| **MATERIALS** | Mud volcano, oil paint and canvas |
| **CONCEPT** | A monumental square statement uniting subterranean geothermal energy with aquatic serenity. An aerial vortex of an active mud-volcano crater rendered in thick palette-knife impasto and authentic mud clay craquelure fissures opens into luminous, flowing glazes of Caspian celadon and seafoam green. Gliding through the geothermal currents, an armored Caspian tadpole goby (*Benthophilus*) gleams with metallic pyrite veins, harmonizing primordial geological power with tranquil ecological resilience. |

PLATE 05 • MYTHOLOGICAL ARCHAEOLOGICAL TOTEM

# Solar Oracle

*Günəş Orakulu*

| | |
|---|---|
| **DIMENSIONS** | **120 × 100 cm** (Horizontal Format Canvas, Specification from Brief) |
| **MEDIUM / TECHNIQUES** | Absheron Coastal Beach Sand Mandala, Masazir Salt Encrustations, Oil & Bone Plaster on Linen |
| **ENDEMIC WILDLIFE** | Caspian Lamprey (*Caspiomyzon wagneri*) |
| **CONCEPT** | A transcendental contemporary altar piece uniting prehistoric rock art with ecological mystery. The ancient Caspian lamprey coils into an Ouroboros circle of eternity around a concentric sand-and-salt solar mandala. Incised directly into the bone-plaster and limestone ground are Gobustan petroglyphs (reed boats, hunters, and sacred solar bulls), immortalizing Absheron's ancient rock art heritage within deep cosmological time. |
